

200A-12V-A - Fleet Solutions High Profile Beacon

Features

- Exceeds SAE J845 (2013) Class 1 requirements (amber)
- CSA Approved
- Unique patented electronic design to optimize thermal efficiency, to extend LED lifetime and improve colour consistency
- Fully encapsulated electronics for rugged durability and moisture and vibration resistance
- 3 Industry standard user selectable flash patterns: Single Flash, Double Flash, Quad Flash
- Zero EMI (No Radio Interference)
- Rugged anodized aluminum base with polycarbonate lens, and UV resistant polycarbonate self-cleaning dome to prevent debris and snow build-up
- 3 year warranty

Specifications

Voltage	12-24
Power Consumption	0.5 Amps
SAE Class	SAE J845 Class 1
Flash Patterns	3
Lumens	912
Mounting	Permanent Mount
